REPORT OF EDUCATIONAL DIRECTOR
Miriam Daughtry, R.N.

During the period from September, 1948, to May, 1949, the Educational Director visited all the forty-six professional schools of nursing which included four affiliation schools.

She made specific recommendations to the schools and presented the reports to the members of the Joint Committee of Standardization for Schools of Professional Nursing at its annual meeting on May 26, 1949.

At this meeting special committees, which included the Educational Director, were appointed to revisit some of the schools to see whether or not the recommendations had been carried out before full accreditation could be given those schools.

It was found that in most cases the hospitals had cooperated in their efforts to carry out the recommendations in order that their school could be accredited.

Following is the enrollment of students in the schools of nursing for the past three years: (This is the enrollment of preclinical students).

Enrollment in the fall of 1947	--	642
Enrollment in the fall of 1948	--	1115
Enrollment in the fall of 1949	--	1003

REPORT OF NORTH CAROLINA BOARD OF NURSE EXAMINERS
Ethel F. Burton, R.N., President

The members of the North Carolina Board of Nurse Examiners conducted examinations on April 13 and 14, 1949, in Winston-Salem, North Carolina.

Report of the Examinations

Reported for examinations-----	152
Passed examinations-----	146
Registered in recognition of their registration in other states-----	190

There were 346 enrolled for the examinations on October 5 and 6, 1949.

The State Board Test Pool Series 747 was given in all subjects for the first time April, 1949. The State Board Test Pool Series 949 was given October, 1949. This series is composed of a set of six integrated examinations. These are as follows:

1. Medical Nursing
2. Surgical Nursing
3. Obstetric and Gynecologic Nursing
4. Nursing of Children
5. Psychiatric Nursing
6. Communicable Disease Nursing.

Each examination booklet has a cover page which lists the titles of the various areas covered in that examination.

Approximately 7,295 have renewed their license for 1949, including 695 who did not renew their license in 1948 and paid the fee for reinstatement. The law relating to professional nursing states the following:

"Any licensee who allows his or her license to lapse by failing to renew the license as provided above (referring to above paragraph of law) may be reinstated by the Board on satisfactory explanation for such failure to renew his or her license and on payment of a fee of five dollars (\$5.00)."

The secretary endorsed applications for approximately 300 nurses applying for registration without examinations in other states from March 15, 1949 to October 15, 1949.

Balance in treasury to date is \$17,832.30.

REPORT OF JOINT COMMITTEE ON STANDARDIZATION
Amy Louise Fisher, R.N., Chairman

The personnel of the Joint Committee on Standardization for Schools of Professional Nursing is as follows:

Amy Louise Fisher, R.N., Chairman, from the N.C. State Nurses' Association.
Miriam Daughtry, R.N., Secretary and Educational Director, from the N.C. Board of Nurse Examiners.
Helen Nahm, R.N., from the N.C. State Nurses' Association.
Ethel F. Burton, R.N., from the N.C. Board of Nurse Examiners.
Mrs. Esther L. Creasman, R.N., from the N.C. Board of Nurse Examiners.
Hildred Harrison, R.N., from the N.C. State Nurses' Association.
Moir S. Martin, M.D., from the N.C. Board of Nurse Examiners.
Louten R. Hedgpeth, M.D., from the N.C. Board of Nurse Examiners.
George L. Carrington, M.D., from the N.C. Hospital Association.
A. L. Daughtridge, M.D., from the N.C. Hospital Association.
H. L. Brockmann, M.D., from the N.C. Hospital Association.
Sample B. Forbus, from the N.C. Hospital Association.

There was a meeting of the Committee on May 26, 1949. This was the regular annual meeting for the accreditation of schools of nursing. At this time the Educational Director had visited all the schools of nursing in the state, and she presented her reports to the Committee.

Three schools were in the process of closing: Grace Hospital, Banner Elk, closed on October 17, 1949. Tayloe Hospital, Washington, closed its professional school on September 1, 1949. Mary Elizabeth Hospital will close its school when all students who are there now complete their 1095 days.

Following are the four schools that were approved for affiliation only: Babies' Hospital, Wilmington, pediatrics; N. C. State Hospital, Raleigh, psychiatry; N. C. Orthopedic Hospital, Gastonia, pediatrics; Sternberger's Hospital, Greensboro, pediatrics.

It is necessary for twenty-six of the schools of nursing to affiliate in one or more services for a period of three to nine months in order to meet the requirements for accreditation.

Approximately fourteen of the schools that meet the requirements have already included a psychiatric affiliation in their basic program so that their students may receive a more complete experience during the three-year course. Other schools are making plans to affiliate in this service.

The Educational Director has begun her visits to the schools of nursing for this school year.

According to the September quarterly reports there are 2569 students enrolled in the schools of nursing in North Carolina. Of this number 1003 are preliminary students who were admitted in September, 1949.

NURSING IN THE MEDICAL CARE COMMISSION

Flora Wakefield, R.N., Member, N. C. Medical Care Commission
Representing the N.C.S.N.A.

A map prepared by the North Carolina Medical Care Commission July 15, 1949 shows the location of thirty-five local general hospitals that have been approved by the Medical Care Commission representing 2043 new hospital beds. Nearly all projects are located in rural counties and eleven are in counties which previously had no hospital facilities whatever.

Reports of this kind are a challenge to the nursing profession. We should be concerned with the nursing service for the sick who will occupy these beds. The Advisory Committee of the State Nurses' Association to the committee on Nursing Education and Service of the North Carolina Medical Care Commission recognized this challenge when they asked for a thorough study of nursing resources and nursing education in the state.

Through efforts of the Committee on Nursing Education and Nursing Service of the Medical Care Commission, the Commission requested the University of North Carolina to make a survey of nursing resources and nursing education. A committee representing professional and lay groups was appointed by Dr. Frank P. Graham, who was president of the University at that time. The committee has five sub-committees working on special phases of the survey. At the request of the sub-committee on Hospital Schools of Nursing, the committee authorized the employment of Miss Julia Miller, Dean of the School of Nursing, Emory University, Atlanta, Georgia, to make a study of the hospital nursing schools in the state.

Early in the spring, Miss Miller spent three weeks visiting all the hospital nursing schools and has prepared a very informative report for consideration by the committee. Other sub-committees are busy studying and preparing data. When the data is completed, the Survey Committee will prepare a report with recommendation to the Medical Care Commission. It is hoped that from this study will come a program for improved nursing service and a long-range plan for nursing education in North Carolina.

The Legislature of 1945 provided for a Loan Fund of \$50,000 for training physicians to work in rural communities in the state. The 1947 Legislature made the loan fund available to students of nursing, dentistry, and pharmacy. As very few applications for loans were received, the Medical Care Commission did not feel the need for requesting additional funds. However, late in 1948, too late to request the Budget Bureau for additional appropriation for this biennium requests for loans were made, and during the first seven months of 1949 twenty four approved applications were received. Eleven of the applicants received loans. These with those already approved will use up the amount of money

available. This means that until the Legislature meets in 1951 no further loans can be granted. While only a few nurses made application for the loan, it was available to them. Until funds are available through the Medical Care Commission, information on loans and scholarships is available and should be investigated.

Mr. James H. Clarke, who has so ably served as chairman of the Medical Care Commission for the past four years, was re-elected chairman at a meeting of the commission on September 16, 1949.

REPORT OF COMMITTEE ON "AMERICAN JOURNAL OF NURSING"
Helen E. Peeler, R.N., Chairman

This committee has not had a regular meeting, but the chairman has discussed the functions and activities of the committee with each member. The other two members of the committee are: Nell Koons, from Wilmington, and Elinor Ellwanger, from Charlotte.

On May 26, 1949, the Chairman mailed a skit on the use of The American Journal of Nursing to presidents of district nurses' associations, chairmen of the district American Journal of Nursing committees and directors of schools of nursing and to be used as a suggested program on The American Journal of Nursing.

This skit was written by Jeanette Stroud and Emma Jane Sloop, freshmen students, Presbyterian Hospital, Charlotte.

The Committee suggested to the district nurses' association that each of them devote one program a year to this magazine.

REPORT OF COMMITTEE ON CONSTITUTION AND BY-LAWS
Ann Rhodes, R.N., Chairman

Other members of this Committee are Mrs. Adelaide J. Peiffer of Wilmington, and Mrs. Jane Lawrence of Winston-Salem. The Committee has not met this year. All business has been transacted by correspondence.

The Committee has not received any proposals to amend the By-Laws of the North Carolina State Nurses' Association.

The proposed amendments to the By-Laws of two district nurses' associations were reviewed. One was approved.

The proposed amendments to the By-Laws of four alumnae associations were reviewed and suggestions were made.

REPORT OF COMMITTEE ON FINANCE
Mrs. Elizabeth C. Clement, R.N., Chairman

The Committee on Finance is composed of the Treasurer, Mrs. Edith Brocker of Chapel Hill, and Lula Craig of Asheville.

The Committee met in Raleigh on September 14, 1949, at which time the budgets for Headquarters' Office and the North Carolina State Nurses' Association

were considered very carefully. The budgets for the coming year were prepared and recommended to the Board of Directors of the North Carolina State Nurses' Association.

REPORT OF COMMITTEE ON LEGISLATION
Miriam Daughtry, R.N., Chairman

The Committee on Legislation is composed of Miriam Daughtry, Chairman, and Mrs. Marie B. Noell, Co-Chairman; Mrs. Maude S. Morgan, Asheville; Elinor Ellwanger, Charlotte; Ellen Bruton, Pinehurst; and Mrs. Jessamine B. Cass, Winston-Salem.

The Committee met in Raleigh on February 16, 1949, at which time the strategy on the Association's Program of Legislation was planned. This plan was approved by the Board of Directors of the Association.

Letter bulletins on pending State and Federal Legislation were sent frequently to the Board of Directors of the North Carolina State Nurses' Association, presidents of district and alumnae associations, chairmen of nurses' clubs, officers of state and district sections, registrars and county legislative chairmen.

Progress reports were published in the March and September issues of the Tar Heel Nurse.

The North Carolina State Nurses' Association is a member organization of the State Legislative Council, which was organized in 1920 for the purpose of coordinating the legislative interests and efforts of state-wide women's organizations in order to present a united front to the General Assembly and to avoid duplication of effort in offering bills, as well as opposing undesirable measures. The North Carolina State Nurses' Association was represented by the President, the Chairman and Co-Chairman of the Committee on Legislation and Helen Nahm at the meetings of the Council on October 29, 1948 and March 25, 1949.

REPORT OF COMMITTEE ON MEMBERSHIP
Mrs. Alma Kee McCracken, R.N., Chairman

The Membership Committee had only one meeting in 1949 which was held in State office with Mrs. Marie Noell, State Executive Secretary, Miss Helen Peeler, Associate Executive Secretary, all three members - Miss Nelle B. Smith, Miss Emma Chaffin and Mrs. Alma K. McCracken, attending. This was on February 28th.

A plan was mapped out designed to inform members and nurses who are not members of the Association about the advantages of membership in the professional nursing organizations through the Tar Heel Nurse and the membership committees of the district nurses' associations.

Due to the fact that only about one half of the nurses currently registered were members of the State Nurses' Association in 1948, the Committee felt that a campaign would be timely and worth while to try to increase our membership at least fifty per cent this year.

The following suggestions were made to all district nurses' associations:

1. That each district association have an active Committee on Membership to carry out the following suggestions:

- a. That each delinquent (regardless of how long it has been since she was a member) be invited to become reinstated.
 - b. That the district committee be assisted by a representative of the district from each community within the district to secure a list of all nurses employed in hospitals, public health agencies, industries and doctors' offices; and that all nurses listed, who are not members, be invited to join.
 - c. That the officers of all alumnae associations within the district be urged to devote the program of one monthly meeting to "The Value of Membership and Participation in Professional Nursing Organizations."
 - d. That all young graduates be extended an invitation to become a member immediately after graduation.
2. That the proposed re-districting of the North Carolina State Nurses' Association be considered as essential in gaining additional members for the Association and that more and smaller districts be organized if local circumstances warrant such.

At the time of this writing, there are 3,360 members, a gain of 654 over the June 30, 1948 report of 2,706 members.

The Committee Chairman has written approximately twenty-five letters to hospitals, public health agencies, industries, office nurses, and individuals in Western North Carolina, inviting them to join the State Association.

REPORT OF COMMITTEE ON NOMINATIONS
Mrs. Eva W. Warren, R.N., Chairman

Other Members of the Committee are Eula E. Rackley, Lumberton; Lula Craig, Asheville; Lillian George, Wilmington; Virginia Tesh, Winston-Salem.

The Committee requested suggestions for officers from the nine district nurses' associations in April. The Committee met at Headquarters' Office in Raleigh on June 18, 1949, to review the suggestions made by the districts. These suggestions were again reviewed on August 12, to replace those nominated who could not serve.

The Report of the Committee is as follows:

REPORT OF COMMITTEE ON NURSING INFORMATION AND PUBLIC RELATIONS

Helen E. Peeler, R.N., Chairman

This Committee has not had a meeting, but has worked with the Public Relations Counsel of the North Carolina State Nurses' Association and closely with Headquarters' Office in promoting a program of public relations for the Association.

Many bulletins and other informative materials relative to the activities of the profession have been dispatched to leaders of district alumnae associations and nurses' clubs. Releases were given to the press at frequent intervals regarding the various phases of the program of work of the association. Also, pamphlets on Recruitment and Counseling have been widely distributed.

Much material and many speakers have been provided for various units of the North Carolina Federation of Women's Clubs and Civic Organizations.

Mr. Scott Summers, Public Relations Counsel of the North Carolina State Nurses' Association, prepared an article on "Public Relations in Action," for the September, 1949 issue of the Tar Heel Nurse.

REPORT OF COMMITTEE ON PROGRAM
Mrs. Marie B. Noell, R.N., Chairman

The Committee on Program is composed of the Executive Secretary, the President of the North Carolina League of Nursing Education, and the chairmen of all the sections of the North Carolina State Nurses' Association.

One Meeting of the Committee was held on June 9, 1949, at which time the program for the 1949 Convention was planned. Mrs. Kate Williard and Miss Hazel Johnson, Co-Chairmen of the Committee on Arrangements, met with us. Upon completion, the program was published in the Tar Heel Nurse.

REPORT OF SPECIAL ADVISORY COMMITTEE OF THE
NORTH CAROLINA STATE NURSES' ASSOCIATION TO THE
COMMITTEE ON NURSING EDUCATION AND SERVICE OF THE
NORTH CAROLINA MEDICAL CARE COMMISSION
Mrs. Eva W. Warren, R.N., Chairman

There has been no necessity for this Committee to function during the past year. It has been suggested, however, that this special committee be dissolved and that a sub-committee of the Joint Committee on Education of the North Carolina State Nurses' Association, and the North Carolina League of Nursing Education be appointed to advise the Committee on Nursing Education and Service of the North Carolina Medical Care Commission.

REPORT OF SPECIAL ADVISORY COMMITTEE TO THE COMMITTEE ON
PROFESSIONAL COUNSELING AND PLACEMENT SERVICE
Lou Alice Arbogast, R.N., Chairman

The Special Advisory Committee to the Committee on Professional Counseling and Placement Service is composed of the following members: Elaine Mashburn, R.N., Asheville; Lillian Sebrell, R.N., Wilmington; Joyce Warren, R.N., Winston-Salem; Catherine Dennis, State Supervisor, Home Economic Education, Department of Public Instruction, Raleigh; Edith Arrington, Religious Director, School of Nursing, North Carolina Baptist Hospital, Winston-Salem; Mr. Scott Summers, Public Relations Counsel of North Carolina State Nurses' Association, Raleigh; Mr. Stanley Moore, Hospital Administrator, Grace Hospital, Morganton; and Frances Jeffers, Counselor, Duke Hospital School of Nursing, Durham.

One meeting was held in Raleigh on May 27, 1949, at which time Miss Elizabeth White, Director of Nurses, Charlotte Memorial Hospital, and Miss Peeler gave a report of the Conference on Professional Counseling and Placement for state counselors and representatives of directors of nurses, which was held at the Continuation Center, University of Minnesota, in March, 1949. The Committee suggested that this report be sent with a cover letter to all directors of nurses in North Carolina

The Members of the Committee made the following suggestions regarding means of publicity, means of interpretation of the use of the service, and the expansion of the North Carolina Professional Counseling and Placement Service:

1. The Counselor should continue to do as much field work as possible.
2. A personal letter should be written to both the director of nurses and hospital administrator of each hospital in the area, prior to the Counselor's local visit emphasizing the fact that the Service may be used by both the employer and the nurse.
3. Local radio programs should be planned preceding the Counselor's visit.
4. True stories or statements about the Service and a list of available jobs should be published in the Tar Heel Nurse.
5. The Counselor should prepare material relative to the Service and distribute it to the instructors to use in Professional Adjustment Classes.

6. In speaking to senior students, the Counselor should emphasize the importance of each having her professional record compiled.
7. Local nurses should be encouraged to give true stories relative to the Service to the newspaper editors for publication.
8. A suggested procedure for writing a human interest story should be prepared and published in the Tar Heel Nurse.

REPORT OF SPECIAL COMMITTEE ON NURSING IN MEDICAL CARE PLANS
Mrs. Emily Pickard, R.N., Chairman

Early in 1949 the A.N.A. and N.O.P.H.N. Board of Directors voted to change the name of this Joint Committee from Nursing in Prepayment Health Plans to Nursing in Medical Care Plans. There was also a slight revision in the statement of principles.

OVER-ALL PRINCIPLES

1. The expansion of medical care plans with provision for nursing service, including nursing care in the home, should be encouraged. Because co-ordination of medical and allied services is the most effective method of providing health services, and because nursing care should be given only in connection with medical care, it is not advisable to set up a separate plan for nursing.

2. Care by both professional and practical nurses is an integral part of medical care programs. Qualifications for practical nurses accepted by the professional nurse group will be the recognized qualifications for practical nurses employed in these programs.
3. More experimentation in the administration of medical care plans including prepayment health insurance plans on both state and local levels is needed for the development of a national health program.
4. In addition to voluntary effort, governmental assistance is necessary for obtaining adequate distribution of health services.
5. The consumer should decide what type or types of medical care plans, including insurance plans, should be encouraged.

There is a great deal of interest in North Carolina now in medical care plans. However, this committee does not know of any instance in North Carolina where nursing services are included in such plans. All of us are perhaps familiar with the new Blue Cross Plan of the Hospital Care Association, Inc., which gives complete hospital care with all extras.

We are told that special nursing was not included because of the shortage of nurses now, and that if nursing had been included the cost would have been prohibitive.

We feel that the nursing profession should be represented in both the planning and the administrative phases of medical care plans.

Other members of this Committee are Misses Flora Wakefield and Josephine Kerr.

REPORT OF SPECIAL COMMITTEE ON PROFESSIONAL
COUNSELING AND PLACEMENT SERVICE
Helen E. Peeler, R.N., Chairman

The Special Committee on Professional Counseling and Placement Service is composed of Julia E. White, R.N., Director of Nurses, Charlotte Memorial Hospital; Helen Nahm, R.N., Durham; and Ruth Hay, R.N., Chapel Hill.

One meeting of the Committee was held in Raleigh in January, 1949. The purpose of meeting was to assist the Counselor in making plans for the program of work of the Professional Counseling and Placement Service for 1949. After reviewing the program of work of the Service for 1948, including field work, office work, publicity and the work of the district committees, the Counselor presented a tentative plan of the program of work, including field work for 1949.

The Committee made the following suggestions:

1. That the Counselor visit as many isolated towns in each local area as possible, and that she spend at least two days in each place at one time.

2. That, when possible, the tentative counseling schedule be published in the Tar Heel Nurse.
3. That the Counselor's visits be publicized more in the local newspapers and publications.
4. That the Advisory Committee to the Committee on Professional Counseling and Placement Service not meet until after the Counselors' Conference in Minnesota.
5. That a list of jobs available through the Service be published in the Tar Heel Nurse.

REPORT OF SPECIAL COMMITTEE ON RED CROSS NURSING SERVICE
Mrs. Grace M. Collie, R.N., Chairman

The Committee is composed of Mrs. Grace M. Collie, Raleigh; Mrs. Elaine Wearn, Charlotte; Bernice Harris, Mount Airy. No meetings have been held.

The Committee assisted in providing Red Cross material for programs at state and district meetings of the nurses' associations and arranged for a speaker and a Red Cross exhibit for the Annual Convention.

The following information about Red Cross Nursing Services in 122 Red Cross Chapters in North Carolina from July 1, 1948, to September 1, 1949, is submitted to you:

1. NURSING ACTIVITIES - A. HOME NURSING: (1) Chapters Teaching Home Nursing--36; (2) Authorized Instructors--94; (3) Instructors Active--62; (4) Classes Completed--233; (5) Certificates Issued--2507
B. INSTRUCTOR TRAINING COURSES: (1) Unit I, Care of the Sick--15; (2) Unit II, Mother & Baby Care & Family--1; (3) Number of instructors trained in each conference --(a) Unit I, Care of the Sick--91, (b) Unit II, Mother and Baby Care and Family Health--13.
C. ITINERANT SERVICES: Services conducted in four chapters: (a) Unit I, Care of the Sick--19 classes--certificates issued--156; (b) Unit II, Mother and Baby Care and Family Health--1 class--certificates issued--7; (c) School classes--3--certificates issued--49.
2. NURSE'S AIDES - Chapters listed with active Nurse's Aide Programs--13; Number of chapters giving Nurse's Aide training classes--2; Number of Nurse's Aides completing training--76.
3. ENROLLMENT - The new community enrollment plan for Red Cross Nursing Service is a departure from the original nurse enrollment program as conceived in 1905, which had as its principal objective a country-wide nurse roster maintained primarily for national emergency purposes. This program was suspended in May, 1945, in anticipation of legislation establishing permanent nurse corps for the Army and Navy, which became public law in April, 1947. Nurses who were enrolled before the new plan was put into effect continue to be recognized as enrolled Red Cross Nurses. According to the new plan, enrollment will be granted on the basis of actual community service through the local Red Cross chapter to any nurse meeting basic requirements. Total number of nurses enrolled under new plan--149 (July 1, 1948 - September 1, 1949)

The following services were participated in by the nurses to meet requirements for enrollment: Polio Nursing--86; Disaster Service--8; Teaching Home Nursing Classes--27; Teaching Volunteer Nurse's Aides--9; Nurse leaders--4; Serving on chapter committees--8; Teaching First Aid--2; and Blood Program Service--5.

4. PUBLIC HEALTH NURSING: The Thomasville Chapter, Thomasville, North Carolina, discontinued their service in July, 1949. This service will be taken over by the official local Public Health Service. The service was organized June 12, 1922. Miss Annie L. Blake, R.N., was employed as the Public Health Nurse and remained in the position for one year, at which time she was replaced by Miss Ella Dorsett, R.N., who has served as Public Health Nurse in the chapter for twenty-five years. She recently resigned because of ill health. The local Red Cross chapter presented her with a twenty-five year service bar.

REPORT OF SPECIAL COMMITTEE ON REGISTRIES Mrs. Katheryn T. Peebles, R.N., Chairman

This Committee has not held any meetings, but the work has been carried on by telephone and correspondence.

A survey of Registrars' salaries was made in March and an effort made to bring these salaries to, at least, a minimum of \$150.00 per month in the larger registries and an increase in the smaller. A letter was written by our State Executive Secretary to District Presidents relating the action of the Board of Directors, and requesting their support on this matter. This Committee has corresponded with registries and committees in an effort to aid in meeting the minimum requested. At present some of the Registrars have received an increase. In other Districts it is still being considered.

Registries have helped, when possible, in securing nurses to serve in polio areas.

Records are kept, and quarterly reports sent to State and National Headquarters.

There are eight official registries in the State. Four accept practical or licensed practical nurses.

Registry fees range from \$15.00 to \$25.00 annually, payable annually or semi-annually as each District designates.

Registries report an active summer, with continual difficulty in filling 3-11 and 11-7 calls. Approximately one-fourth of these calls are unfilled.

REPORT OF SPECIAL COMMITTEE ON STRUCTURE STUDY Edna L. Heinzerling, R. N., Chairman

The other Members of this Committee are: Josephine Kerr, Charlotte; Mrs. A. H. Thompson, Rocky Mount; Mrs. Louise McDaniel, Salisbury; Mrs. Thelma Warters Riggs, Wilmington; Mrs. Lucille Zimmerman Williams, Durham; and Mattie Idol, High Point.

The Committee has met twice: Raleigh, May 24, and Charlotte, June 3. Another meeting will be held on October 10.

The Chairman of this Committee and the Executive Secretary of the Association attended a two day institute which was conducted in Chicago, March 17-19, 1949 by the Committee on Structure of the National Nursing Organizations. The purpose of the National Institute was to instruct state representatives on the revised proposed plans for the structure of our professional organizations: (1) A two-organization plan, and (2) A revised one-organization plan. (published in 1949 Handbook and April, 1949 American Journal of Nursing).

Two Institutes on Structure Study were conducted by the North Carolina State Nurses' Association: one in Raleigh on May 24-25, 1949, and one in Charlotte, on June 3-4, 1949. Thirty-five nurses registered for the Raleigh Institute. Sixty-nine registered for the Charlotte Institute. Members of the State Committee and Mrs. Noell and Miss Peeler participated in the institute programs.

Handbooks and other informative material were secured for presidents of district associations and chairmen of nurses' clubs. Frequent letter bulletins on this subject have been dispatched to local nurses' groups. Articles on Structure Study were published in the March and September issues of the Tar Heel Nurse.

Since the Committee on Structure of the National Nursing Organizations has requested the opinion of State Nurses' Associations on proposed plans for the structure of organized nursing prior to December 1, 1949; and since the North Carolina State Nurses' Association has for several years studied proposed plans but has never taken action on any plan, the Members of this Committee met in Raleigh on October 10 and considered opinionnaires from district associations, nurses' clubs and individual nurses and made recommendations to the Board of Directors of the North Carolina State Nurses' Association.

REPORT OF JOINT COMMITTEE ON EDUCATION OF THE
NORTH CAROLINA STATE NURSES' ASSOCIATION
AND THE NORTH CAROLINA LEAGUE OF NURSING EDUCATION
Helen Nahm, R. N., Chairman

The Joint Committee on Education of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education has held two meetings during the past year, the first on January 19, 1949, and the second on May 27, 1949. At the first meeting, it was decided that the Committee would continue to try to carry out the five purposes selected during 1948 (see Annual Report of 1948). Two additional purposes were added to the original five.

1. To carry on an educational program in relation to the Brown Report and subsequent nursing education and service studies.
2. To consider the various phases of practical nurse education.

Suggestions for In-Service Education Programs for Graduate Nurses which had been developed by the Committee during 1948 were sent to all directors of schools of nursing in North Carolina in December, 1948. Recommendations regarding qualifications, preparation, and functions of faculty members and staff nurses in hospitals and schools of nursing were formulated and adopted by the Committee and sent to the following individuals: Directors of Nurses; Presidents of District and Alumnae Associations; and Chairmen of District Institutional Staff Nurse Sections and Nurses' Clubs.

At the January meeting five sub-committees were appointed. Membership of these sub-committees is as follows:

In-service Education: Mrs. Eva Warren, Chairman; Amy Fisher; and Dr. Moir S. Martin.

Graduate Nurse Education: Miss. Ruth Hay, Chairman; Dr. Robert B. House; and Helen Nahm.

Basic Nursing Education (Curriculum Committee of State League): Hildred Harrison, Chairman; Dorothy Smith; Helen Peeler; Miriam Daughtry; and Ruth Dalrymple.

Practical Nurse Education: Miriam Daughtry, Chairman and Helen Peeler.

It was decided that the Chairman of each sub-committee could ask additional persons to serve on her committee if she cared to do so.

Activities of these sub-committees for 1949 are as follows:

In-service Education - Questionnaire sent to Directors of Nurses in all North Carolina hospitals requesting information about in-service programs. Findings of this questionnaire were tabulated and sent, with additional suggestions for in-service programs, to Directors of Nurses in hospitals in North Carolina.

Graduate Nurse Education - Miss Hay and Miss Nahm met with Dr. House and Mr. Russell Grummon, Director of the University of North Carolina Extension Service to discuss kinds of information which might be made available to graduate nurses in North Carolina regarding college courses which would be available to them. This information will be summarized and distributed sometime within the coming year.

Basic Nursing Education - A study of pre-clinical programs in schools of nursing in North Carolina has been made. (See Curriculum Committee Report of North Carolina League of Nursing Education).

Practical Nurse Education - A meeting was held in Miss Daughtry's office on March 28, 1949, with the Directors of the three Practical Nurse Education Programs in North Carolina, Mr. Forbus, Mr. H. R. Collins, and Mr. George W. Coggins, present. The Sub-Committee on Practical Nurse Education recommends that the North Carolina League of Nursing Education consider having a workshop or conference on practical nurse education and the use of practical nurses.

Bills introduced in Congress to provide funds for nursing education were reviewed. Letters urging the passage of Title I of S.1679 and S.1453 with changes suggested by the National Nursing Organizations were sent to all Congressmen and the two senators from North Carolina. Letters of appreciation were received from Senator Frank P. Graham and eleven Congressmen.

The Committee members have discussed ways and means of carrying on an educational program in relation to the Brown Report. It was recommended that a round-table discussion based on this report be planned for the State Nurses' Association Meeting in October, 1949.

REPORT OF JOINT COMMITTEE ON STUDENT NURSE RECRUITMENT
OF THE NORTH CAROLINA STATE NURSES' ASSOCIATION
AND THE NORTH CAROLINA LEAGUE OF NURSING EDUCATION
Mildred Crawley, R. N., Chairman

The Joint Committee on Student Nurse Recruitment of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education held one meeting at the Headquarters' Office in Raleigh on January 20, 1949. There were six members and seven guests present.

The purpose of the meeting was to discuss and make plans for the "Miss Student Nurse" contest and tour. The committee decided to ask the North Carolina Hospital Association and the North Carolina Medical Society to help finance the contest as had been done previously.

The North Carolina Good Health Association, represented by Mr. H. C. Cranford, Executive Director, volunteered to conduct the publicity for the contest and the Hospital Savings Association of North Carolina, represented by Mr. Louis M. Conner, Jr., volunteered to assist with the tour and to conduct the publicity for the tour.

It was decided by the members of the Committee to handle the contest in a similar manner to that of the past two years. Specific plans were outlined by the Committee for both the contest and the tour.

The finals of the contest were held in the Memorial Auditorium in Raleigh, March 16, 1949, at 8:00 P.M., at which time Miss Juanita Lee of Raleigh, a senior student at Watts Hospital School of Nursing, Durham, was selected and crowned "Miss North Carolina Student Nurse of 1949."

During a two weeks' tour, April 4-16, Miss Lee, accompanied by Helen E. Peeler, Associate Executive Secretary and Counselor, and Mr. Louis M. Conner, Jr., Public Relations Director of The Hospital Savings Association, visited twenty-one high schools and two colleges, spoke before six civic organizations, spoke on eleven radio programs, presenting Nursing as a Profession. Miss Lee was also interviewed by many other groups and individuals such as the Mayor, members of the Chamber of Commerce and newspaper editors.

The Committee appreciates the cooperation of the many schools of nursing who participated in the contest and the District Nurses' Associations which aided in making our recruitment program a success.

REPORT OF COMMITTEE OF BOARD OF DIRECTORS OF
NORTH CAROLINA STATE NURSES' ASSOCIATION ON
LINDA RICHARDS ACHIEVEMENT AWARD
Elizabeth C. Clement, R. N., Chairman

This Committee met in Raleigh on January 12, and on February 23, 1949. The other Members of the Committee are: Mrs. Thelma Warters Riggs and Edna L. Heinzerling.

The functions of this Committee were to outline a plan for the selection of an outstanding North Carolina Nurse to receive the Linda Richards Achievement Award and to assist in this selection.

The purpose of the first meeting of the Committee was to decide how the winner of this award should be selected and when the award should be granted. The award should be granted on the basis of achievement, scholarship, appearance, personality, leadership, aptitude for nursing and devotion for duty.

The Committee decided to use the following procedure in selecting the winner:

1. The director of nurses and two members of the teaching staff of each school of nursing, shall select a qualified registered professional nurse from their school, who graduates during the period August 1, 1948 through July 1, 1949, and who is employed in some field of nursing.
2. The director of nurses shall send to Headquarters' Office prior to February 10, 1949: (a) A glossy print of the candidate in uniform (head and shoulders), and (b) A brief biography (in duplicate) of the candidate's qualifications for the award including her age, birthplace, home address, education prior to nursing school, previous awards or honors and her ability as a nurse.
3. All candidates shall be considered by the members of this Special Committee of the Board of Directors of the North Carolina State Nurses' Association during the third week of February and make a report to the Board of Directors who will select the state winner at the time of the midyear meeting of the Board.
4. The North Carolina winner of the Linda Richards Achievement Award shall be announced to the press soon after the midyear meeting.
5. This Award shall be formally presented to the North Carolina winner at the Forty-seventh Annual Convention of the North Carolina State Nurses' Association and the Thirty-first Annual meeting of the North Carolina League of Nursing Education in High Point, in October, 1949.

The purpose of the second meeting was to study the qualifications of the fourteen candidates presented by the schools of nursing. After careful consideration, four candidates - two with college preparation and teaching experience, and two with high school education prior to entering the school of nursing - were selected and were presented to the Board of Directors at the March meeting, for the final decision as to who should receive the Award.

Each of the four candidates passed State Board Examinations in October, 1948, making an average of ninety or above and received a gold seal.

Edith Byers of Charlotte Memorial Hospital was selected to receive this Award. An announcement of this was made to the press in April.

REPORT OF NORTH CAROLINA LEAGUE OF NURSING EDUCATION
Florence K. Wilson, R. N., President

This year has been a very important year in the work of both the North Carolina League of Nursing Education and the National League of Nursing Education. Many activities have been initiated which should have far reaching effects on the education of nurses. It is important that all the nurses in North Carolina keep abreast of these new developments. In the first newsletter of the North Carolina League of Nursing Education, the statement was made that increasing the membership was the first objective of the organization for this year. I am very pleased to report that 81 members renewed their membership this year and we have 57 new members, making a total of 138 members. I sincerely hope that all of these members will renew their membership for next year and that we will continue to receive new applications. This membership in professional organizations is one way to know what is being accomplished by our professional organization.

The committees have been active this year you will note that many of these committees have made recommendations for work to be done in the coming year. I wish to express my appreciation for the efforts put forth by the committees and I hope next year, we will have continuing activity by these committees. Early in the year, we found that Gladys Benz, the Executive Secretary of the National League of Nursing Education was planning to visit the North Carolina State League; because of this intended visit the Program Committee decided to have a state-wide meeting rather than meetings of the eastern and western divisions. This meeting was held in Chapel Hill with a very encouraging attendance. The subjects discussed were Admission Procedure in School of Nursing, The Evaluation of the Work of the Student and of the Graduate Nurse, A Panel Discussion of the Brown Report and a Preliminary Report of the Survey Committee for North Carolina. Miss Benz brought to the meetings a description of the activities of the National League and entered into the discussions on each program. She has expressed her appreciation of the opportunity of meeting the members and seeing some of the work of the North Carolina League.

The League helped to sponsor the contest for selecting "Miss North Carolina Student Nurse of 1949" held in Raleigh. The League offered a scholarship of \$150 in nursing education to the winner. If the winner does not take advantage of this scholarship, another applicant will be selected.

In April an informal meeting of the presidents of state leagues in the southern states and one other representative from each state league was held in Atlanta in the offices of the Regional Council on Education. These representatives deliberated for two days on the status of nursing education in the southern states. One of the points made was the need for a good affiliation in Psychiatric Nursing in this region. Information has been received from the National Institutes of Health of the Federal Security Agency, Public Health Service as to the advanced courses in nursing education being offered at the various universities. The first need in establishing a good program in psychiatric nursing is the availability of well qualified nurses prepared in the field of psychiatric nursing. All nurses interested in advanced courses in psychiatric nursing are urged to investigate these new courses.

The conference had three outcomes: 1. The assurance from the staff of the Regional Council on Education that they would be very glad to have us use their office facilities and keep in close touch with the chairman of the council, although we could not have official recognition, because we were a professional

organization and not an official state organization. 2. Plans were drawn up for a continuing organization at the discretion of several state leagues. This is one of the important issues to be settled at our business meeting in High Point. 3. The third conclusion was that we needed information of the nursing needs and resources of the southern states to plan for the future of nursing education in these states. Each state league was asked to contribute the sum of \$10 to meet the expenses of correspondence for planning the regional conference. The referendum vote was taken from the members of the Board of the North Carolina League and the \$10 was contributed for the regional group.

At the Annual Meeting of the National League of Nursing Education in Cleveland, there was evidence of a much greater interest in the work of the state leagues. In addition to the meeting of the Advisory Council usually held previous to the Annual Meeting there was a final meeting of the presidents of all the state leagues. At both meetings, there was great interest in the proposed regional organization. Representatives from other parts of the country indicated that nursing must ally itself with the regional movements in general education.

In August the National Accrediting Service held meetings in three cities explaining the procedure of accreditation for all the programs in nursing. This is a very important procedure in nursing education and it is very encouraging that a number of the members of the North Carolina League of Nursing attended these workshops. A demonstration of the process of accreditation is to be given in the business meeting of the League on Tuesday evening, October 25 in High Point.

The National League of Nursing Education is asking us for suggestions for nominees in the following offices; president, treasurer, three directors who are nurses and one who is a lay person. The Board of the North Carolina League would welcome any suggestions as to nominees, but be sure the person would accept if nominated. There are several very important matters to be discussed and voted on at our business meeting: the matter of continuing an organization of the state leagues in this region; our opinion as to the structure proposed by the National Committee presented by the workshop on structure planned by the North Carolina State Nurses' Association last spring and the following recommendations presented by our committee: Below are listed the recommendations from the reports submitted by the various committees:

Test and Measurements Committee

The following should be projects of the Committee for the coming year:

1. Results of the State Board Test Pool Examination should be studied to compare the mean scores of the candidates of the North Carolina Schools of Nursing. These should also be compared with the all-state mean scores. The interpretation of these results could be of benefit to the educational program in the school.
2. Suggestions should be made as to ways to correct the deficiencies in the basic nursing school course of applicants for registration by reciprocity in North Carolina. For example, North Carolina requires eighty-four days of Pediatric Nursing Practice for registration. Applicants from some states do not meet this requirement. There are also other deficiencies to be considered.

Program Committee

That the North Carolina League have several one day meetings during the year, and that the discussions be designed to help the directors, supervisors, head nurses, and general staff nurses with such current problems as student government for those of us who do not have it, clinical teaching program, ward teaching program, clinical teaching for supervisors, the duties of head nurses including ward administration, orientation for new students, proper orientation of affiliates from one school to another, etc.

Western Division

More frequent and shorter meetings of the League during the year with discussion of current problems which affect the smaller schools.

Eastern Division

If the League is going to be divided into two divisions it is recommended that we should have a monthly workshop, institute or some program that will help those of us who need help on such problems as student organization, student orientation, orientation for affiliates, ward teaching program for head nurses, clinical instruction for supervisors, etc.

Structure- (See report of North Carolina State Nurses' Association) The parts dealing specifically with the League are as follows:

The Committee on Structure of the National Nursing Organizations has submitted a two organization plan and a one organization plan, based on the "1948 Tentative Plan for One Professional Nursing Organization" for nurses to examine and decide upon. Many nurses are of the opinion that the one organization plan cannot serve the profession as is needed without, for legal reasons, becoming two organizations in reality. For this reason, the following remarks are based on the two organization plan shown in the Handbook and Journal article.

The National League of Nursing Education would become an organization dealing with nursing service and education and would be known as the Nursing League of America. It is proposed that all nurses, lay people interested in nursing, service agencies (health departments) and nursing schools would belong to this new organization. Two divisions are proposed: One on Nursing Service with three departments: public health agencies, institutional services and industrial services. The second one on Nursing Education with three departments: schools giving a degree, schools giving a diploma and Boards of Examiners.

Joint Orthopedic Nursing Advisory Committee

1. That the North Carolina League of Nursing Education sponsor two institutes on orthopedics, one in the western part of the state and one in the eastern part. That the institutes be conducted by Miss Jessie Stevenson in the spring of 1950, the dates to be set by Miss Stevenson and approved by the president of the League.

2. That more functional anatomy is included in the curriculum.
3. That key nurses and physical therapists be selected by this committee and approved by the League president. These nurses would be called on for assistance during a polio epidemic, if needed. The following centers are suggested: Greensboro, Winston-Salem, Charlotte, Aberdeen, Raleigh, Durham, Lumberton, Morganton, Wilmington, Gastonia, Asheville and New Bern. In addition to these, one of the County Health Departments (possibly Halifax) would be asked to assist in counties east of Raleigh on the Virginia line, etc., and the health department in Waynesville, all counties west of Asheville.

Curriculum Committee

Recommendations made in report of Joint Committee on Education.

Committee on Revisions

Recommends a careful study of our standing and special committees for next year with the idea in mind of reducing the number of committees if that is possible.

Recruitment Committee

Although no formal recommendations have been made by this committee the chairman wishes to recommend consideration of a smaller number on the committee in the hope that it will thereby function more effectively. I feel that thirteen members are difficult to assemble at one time and that the active participation was not satisfactory. Also, I would like to recommend that serious consideration be given to the effectiveness of the "Miss North Carolina Student Nurse Contest" before the League of Nursing Education decides to lend its support during the coming year.

REPORT OF INSTITUTIONAL STAFF NURSE SECTION, N.C.S.N.A. Mrs. Louise Hayduke, R. N., Chairman

Other officers of the Section are: First Vice-Chairman - Grace Mitchell, Raleigh; Second Vice-Chairman - Bernice Cobb, Durham; Secretary - Mrs. Lena P. Stanley, Goldsboro.

A special committee on Economic Security was elected at the 1948 Annual Meeting. This Committee acts as the fact finding group for the Section and studies state-wide minimum standards already adopted for the purpose of recommending revisions. Elected members are: Mrs. Carolyn Bogue, Wilson, Chairman; Mrs. Thelma Warters Riggs, Wilmington; Mary Williams, Durham; Mrs. Lorraine Daniels, Raleigh; and Mae Duncan, Winston-Salem.

The objectives of the Section for the year have been two-fold: (1) To stimulate the organization of a general duty nurse section and the organization of an administrative section to replace the existing Institutional Staff Nurse Section. (2) To encourage greater participation of institutional staff nurses in all activities of the section on district, state and national levels.

The mid-year meeting of the Section was held in Durham on March 11, 1949, with sixty-five members present. Mrs. Thelma Warters Riggs who attended the

four day Conference for Chairmen of General Duty Sections of State Nurses' Associations, which was conducted by the American Nurses' Association in February, 1949, gave an excellent report of the Conference.

The Elected Committee on Economic Security recommended that this Section be divided into two sections (General Duty Section and Administrative Section). After much discussion, the recommendation was rejected.

Since we do not have a general duty nurses' section in the North Carolina State Nurses' Association, Mrs. Louise P. East, President of the North Carolina State Nurses' Association, appointed a Committee of General Duty Nurses. Mrs. Thelma Warters Riggs is Chairmen. Other members are: Mrs. Lena P. Stanley and Mrs. Carolyn Bogue.

The Elected Committee on Economic Security met in Raleigh on September 15, 1949.

Your Chairman has attended all meetings of the Board of Directors of the North Carolina State Nurses' Association, and meetings of the Committees of the Section.

REPORT OF PRIVATE DUTY SECTION, N.C.S.N.A.
Paulyne Kenney, R.N., Chairman

Two regular and two call meetings have been held with good attendance and all districts represented.

State-wide Minimum Standards of Employment of Private Duty Nurses were formulated by the Elected Committee on Economic Security and discussed and revised by the Section at the midyear meeting in Durham, on March 11, 1949. They were approved by the Board of Directors of the North Carolina State Nurses' Association on March 12, 1949, and announced to the public through the press on April 4, 1949, and became effective on May 1.

A maximum of \$9.00 per eight hour period for private duty nursing of workmen compensation cases became effective January 1, 1949.

Nine private duty nurses - four from District Four - answered the Red Cross call for disaster nursing in Polio.

All members have been asked to read the Brown Report and to study the Structure Study.

Letters have been sent to each chairman asking for a report and a representative to attend the 1949 Convention.

Your Chairman attended the Conference held for Chairmen of Private Duty Sections of State Nurses' Associations which was held in Chicago, Illinois last February. She also attended the midyear meeting of the Board of Directors of the North Carolina State Nurses' Association.

Your Chairman wants to thank each and every member for their splendid cooperation.

REPORT OF PUBLIC HEALTH SECTION, N.C.S.N.A.
Lois B. Cox, R. N., Chairman

The following people assumed office in the Public Health Section of the State Nurses' Association following the meeting in Wilmington, North Carolina in October, 1948.

Chairman - Lois B. Cox - Durham, N. C.
1st. Vice-Chairman - Louise Croom - Sanford, N. C.
2nd. Vice-Chairman - Ida Reid Cohn - Asheville, N. C.
Secretary - Mrs. Rubye B. Bryson - Waynesboro, N. C.

The following temporary committee was appointed to study economic security for public health nurses:

Mrs. Mary King Bailey - Graham, N. C.
Rebecca Swindell - Raleigh, N. C.
Mrs. Naomi Peoples - Winston-Salem, N. C.
Mary Louise Hasty - High Point, N. C.
Nan Bunn - Hillsboro, N. C.

This committee met three times and submitted recommendations at the mid-year meeting. These recommendations were approved and the temporary committee then elected as a permanent committee to further study economic security and continue action on the recommendations.

At the mid-year meeting, there was more discussion of uniforms, and it was decided that a committee be appointed to study the situation and present a possible solution at the fall meeting. This committee was composed of: Mrs. Louise P. East, Chairman; Anne Barentine; Mrs. Edith Brocker; Mrs. Ruby Bryson; and Atha Howell.

The program committee has met twice and suggested plans for the state meeting and discussed order of business for same. Program Committee:

Ruth Hay - Chairman - Chapel Hill, N. C.
Mrs. Alice Gifford - Chapel Hill, N. C.
Dorothy Lunsford - Chapel Hill, N. C.

A small complete new file of the activities of the Public Health Nursing Section since it's origin has been arranged for future use by officers and members of the section.

The nominating committee has announced the following slate of officers for 1950:

Louise Croom - Chairman - Lee County Health Department - Sanford, N. C.
Mrs. Louise McDaniels - 1st. Vice-Chairman - Rowan County Health Department - Salisbury, N. C.
Annie Robinson - 2nd Vice Chairman - Concord, N. C.
Agnes Campbell - Secretary - Iredell County Health Department, Statesville, N. C.

As a member of the Board of Directors of the North Carolina State Nurses' Association, the Chairman has attended all regular and call meetings. She also served on the Program Committee for the State Meeting.

REPORT OF OFFICE AND INDUSTRIAL SECTION, N.C.S.N.A.
Mary Wiley Scott, R.N., Chairman (resigned)

Other officers of this Section are: Vice-Chairman, Mrs. Dorothy Plaster, R.N., Greensboro; Secretary, Mrs. Ruby Moore, R.N., Graham. An active file of the names of Office and Industrial Nurses throughout the state was obtained. Letters and questionnaires were then sent out to Office and Industrial Nurses hoping to create more interest for this section.

Nomination Committee appointed for the 1950 slate were: Lillian Tilley, R.N., Greensboro; Ruth Miller, R.N., Greensboro; and Agnes Kellam, R.N., Burlington.

Your Chairman attended the Conference held March 16 through 20, at the Henry Hudson Hotel in New York. This was the first Socio-Economic Conference for Industrial Nurses.

The mid-year meeting of the Section was held at the Robert E. Lee Hotel, Winston-Salem, May 6, 1949 with twenty members present. Mrs. Helen Elrod, Assistant Executive Secretary of the A.N.A. who works with the Industrial Section attended this meeting. She spoke on the urgent need of setting up State-Wide Minimum Standards for the Industrial Nurses in Personnel Practice. The Nurses present voted to elect a committee for formulating State-Wide Minimum Standards for Industrial Nurses. Those named on this committee are as follows: The Chairman of the section, Vice-Chairman and Secretary automatically become committee members. The President of the North Carolina State Nurses' Association is an ex-officio member. Four other members were elected namely, Naomi Meyers, Mildred Lee, Mrs. Elizabeth Tice, and Mrs. Esther Barrett: Alternates were Mrs. Vera McGee, Mrs. Lucille Sorrell and Lillian Tilley.

At a call meeting held May 25, 1949, Miss Mary Wiley Scott, R. N., tendered resignation and Mrs. Dorothy Plaster, R.N., accepted the Chairmanship for the remainder of the year.

The Committee on Minimum Standards of Employment for North Carolina Industrial Nurses met in Raleigh, August 15, 1949 with Mrs. Marie B. Noell, Executive Secretary of North Carolina State Nurses' Association. The Nurses of the Committee present were: Mrs. Dorothy Plaster, Lillian Tilley, Mildred Lee, and Mrs. Lucille Sorrell - absent were Mary Wiley Scott and Mrs. Ruby Moore.

Mrs. Plaster reported that approximately 120 questionnaires have been sent out and 66 returned. A survey of the answers to the questionnaires were read. After much discussion, Minimum Standards of Employment for Industrial Nurses of North Carolina State Nurses' Association were decided upon subject to change. Copies of same were to be sent to each of the committee for suggestions and revision.

The proposed Minimum Standards are to be presented to the Section at the Annual meeting in October, of the North Carolina State Nurses' Association to be held in High Point. At that time, they will be further revised or adopted and then passed on to the Board of Directors of the State Association for their approval before becoming effective. We feel sure that the section will be interested to know that as of September 3, 1949, Miss Wiley Scott is now Mrs. Thomas Tyson.
